Dear Reader,

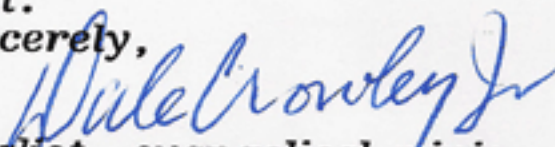

You have one of the most combative, controversial, and important books of the twentieth and twenty-first centuries . . . daring to confront and expose many of the major political, religious, and other deceptions of our time. It is heavy reading for tough times.

The question now is, "How many of our friends and family will benefit from its pages as we have?"

Let's face it. One of the drawbacks in a book like this is that it is a little difficult to give or recommend it to others.

So I challenge you to do just that . . . overcome that obstacle and get additional copies for those you care about the most.

Sincerely,

One of a very few fundamentalist, evangelical ministers who is not a devotee of the cult of Israel, Scofield dispensationalist, or "freedom and democracy" warmonger.
